David Schilansky, Deputy Chief Executive Officer, will host investor meetings at the Gilbert Dupont 16th Annual Healthcare Conference on Tuesday, May 29, 2018, in Paris, France.

Susanna Mesa, Chief Business Officer, will present at the Barclays West Coast Biopharma Conference in Calistoga, CA, on Thursday, May 31, 2018, at 9:00 am PT.

Live webcasts of the Company presentations at the Deutsche Bank 43rd Annual Health Care Conference and the Bank of America Merrill Lynch Health Care Conference 2018 will be available on the Investor Relations section of the Company's website: <https://www.dbv-technologies.com/investor-relations/>. Replays of the presentations will also be available on DBV's website within three hours after the events.

About DBV Technologies

DBV Technologies is developing Viaskin®, a proprietary technology platform with broad potential applications in immunotherapy. Viaskin is based on epicutaneous immunotherapy, or EPIT®, DBV's method of delivering biologically active compounds to the immune system through intact skin. With this new class of self-administered and non-invasive product candidates, the Company is dedicated to safely transforming the care of food allergic patients, for whom there are no approved treatments. DBV's food allergies programs include ongoing clinical trials of Viaskin Peanut and Viaskin Milk, and preclinical development of Viaskin Egg. DBV is also pursuing a human proof-of-concept clinical study of Viaskin Milk for the treatment of Eosinophilic Esophagitis, and exploring potential applications of its platform in vaccines and other immune diseases. DBV Technologies has global headquarters in

Montrouge, France and New York, NY. The Company's ordinary shares are traded on segment A of Euronext Paris (Ticker: DBV, ISIN code: FR0010417345), part of the SBF120 index, and the Company's ADSs (each representing one-half of one ordinary share) are traded on the Nasdaq Global Select Market (Ticker: DBVT).
